

Syrma Technology Receives Award from ELCINA – Dun & Bradstreet for Electronics Hardware Manufacturing Export Performance in Large Scale Business Category

Chennai, India; September 10, 2008: Syrma Technology was recognized today for their outstanding performance in electronic hardware manufacturing in the export category for large scale businesses. Syrma had the distinguished honor to receive a Certificate of Merit that was presented by Dr. V. Krishnamurthy, Chairman, National Manufacturing Competitiveness Council (NMCC), at the 40th Annual General Meeting of ELCINA / ELCINA-D&B Awards for 2007-08 in New Delhi, India. The ELCINA - Dun & Bradstreet Awards for Excellence in Electronics Hardware Manufacturing and Services are meant to recognize the achievements of electronics/I.T. manufacturing companies in India. Entries received every year are evaluated by a panel of judges comprising of senior government officials, senior members of ELCINA and other industry leaders.

As a pioneer in operating out of India's Special Economic Zones, Syrma and the Tandon Group companies have frequently ranked among the largest electronics exporters out of India, achieving over 40 awards for quality and manufacturing excellence in the last 30 years. Across India, Syrma and the Tandon Group have identified strategic locations to develop and bring on line world class manufacturing infrastructure in dedicated as well as co-developed SEZs.

"We are honored to be recognized by ELCINA-Dun & Bradstreet for the successful export growth of our precision components and contract manufacturing services business from India," said Jaideep Tandon, CEO of Syrma Technology. "As India continues its journey to become an attractive hub for electronics hardware manufacturing, Syrma is positioned to be a leader in support of medium- to high-mix manufacturing models and the partner of choice for telecom, industrial, medical and defense industry OEMs seeking India based supply chain partners."

About Syrma Technology
